

The Dubai CHAMPIONS CUP

TUESDAY 4TH
APRIL 1989

LIVERPOOL
V CELTIC

SPONSORED BY

A NEW LEGEND UNLEASHED

Every year, since 1722, Garrard, the Crown Jewellers, have created pieces of unrivalled quality, designed and made by the world's greatest craftsmen.

Jaguar, too, are inextricably associated with beautiful things, and their designers and craftsmen are also well used to working with the finest materials. Witness the selected hides and intriguing wood veneers furnishing Jaguars interiors. The classic shape and richly glowing exterior of the Jaguar motor car, can rightly be considered as virtually a sculpture in its own right.

This marvellous sculpture of the beast in bronze, portrays the savage intensity and power inherent in the name, and was commissioned by Jaguar, in a strictly numbered edition, from Garrard.

**You can now order your right-hand drive Jaguars (to U.K. specifications) at Dubai prices.
Contact us for further details.**

THE DARE DEVIL MOTORCYCLE STUNT TEAM

**NON STOP THRILLS AND
EXCITEMENT**

JAMES DYLAN

The Captain of the team is The Incredible James Dylan, who in July 1973 broke the world record for the aerial tunnel of fire. In May 1974 beat the rest of the world with his 100 foot slide of death.... and the most dangerous stunt of all, the tremendous tunnel of fire. In June 1975 he smashed all previous attempts with a world record run of 126 feet. A record which stands to this day. NOBODY has ridden through a tunnel longer than this built to the same specifications. He has also broke the British Record for a car leap of over 128 ft. and is team leader of Arena Promotions Freefall Parachute Display Team.

JEFF SANSOM

Wheelie King Jeff Sansom hails from Wales in Great Britain, and he can perform precision routines like you have never seen before. Not surprising because 'our Jeff' has won the British Wheelie Championship title twice in recent years, the times when he hasn't the honour has been claimed by his best pal Colin Smale. This obviously creates a sense of freindly rivalry between the lads which serves to keep them both hot on the wheel.
