TOMMY BURNS

IT'S BEEN A BUSY WEEK FOR ALL CONCERNED AT THE CLUB. LAST SUNDAY'S MATCH WAS THE BIGGEST FACED AT THE CLUB FOR SOME TIME, BUT WE CAME THROUGH IT WELL. There was a lot of media comment before the game which suggested that our players would "freeze" on the day, but nothing could be further from the truth. The longer the game went on the more we looked like winning! A special word for Craig Paterson, who's had a tough time through injury this season, but played patiently in the Reserves waiting for another chance. He played a big part in snuffing out the threat of Mark Hateley.

All the players gave everything and did us proud, but if they can't play on a stage like that then they never will! We knew you wouldn't let us down, and we were right. Your support was crucial in keeping the players going.

We have to put the cup behind us, as we face a number of vital league matches over the next few weeks, starting today against Celtic. It will take another fighting performance, like the one we turned in during the 2-2 draw here earlier this season if we're to take something today. We should have taken more from the two draws, and hardly deserved to go down 1-0 at Parkhead when we lost to a fluke last minute goal. We need the breaks and are overdue some luck, especially in front of goal.

It sounds a cliché, but we really will have to treat each game like a cup final. Having tasted Premier League football I'm sure players and supporters alike are desperate to see more of the same next season, especially as we'll have a revamped Rugby Park to play in. No effort will be spared in keeping the club in the top flight.

THE DREAM BECOMES A REALITY

It's official - Killie will be playing in a revamped Rugby Park by the start of the 1995-96 season. After a worrying few weeks, Chairman Bobby Fleeting was finally able to announce that Kilmarnock FC had obtained funding for the development of three new stands, and the refurbishment of the existing main stand.

If the bulldozers were to move in on Sunday, May 8th, after the Rangers game, the steelwork had to be ordered quickly by the contractor, Barr Construction. But a couple of weeks ago a number of large pieces of the jigsaw weren't in place. The club had the financial commitment of a large number of fans who had signed up for the "preferential" seats scheme, but no Football Trust money, no Planning Permission, and no funding from the Royal Bank!

SOUTH	Dundonald Road (Home)	("Moffat" Stand)
NORTH	Rugby Road (Away)	("Chadwick" Stand)
EAST	Existing Enclosure (Home)	
WEST	Existing Stand	

Without planning consent and proof that the Football Trust would grant aid to the project, the bank couldn't back the venture, and without the other three pieces the contractor couldn't start his preparations! With the deadline approaching fast, at last things fell into place. The planning OK was quickly followed by a message from Tom Wharton that the Football Trust's £2 million had been agreed. Work on the "new" Rugby Park, all-seated to hold over 18,000 spectators, can therefore go ahead. After today's game you'll only have a couple of matches to wallow in a bit of nostalgia and remember the good times and the bad times that we've seen at Rugby Park over the years. Within 18 months Rugby Park will be barely recognisable compared to its present form but it will be transformed into one of the best grounds in Scotland.

Now, about that Premier League place . . .
