# SOUNNESS

There are no  
easy games  
in this league!

Following the disappointing result in the Skol Cup Final recently, despite performing very well, we've had a good week with victories over St Mirren and Hibernian, and despite being a few points off the lead during the first quarter of the season, we now find ourselves only one point behind the leaders.

And one of the reasons for those victories was the character the players showed both on and off the pitch which has now brought us into a challenging position in this very competitive Premier League.

I said at the beginning of the season that there will be no easy games, and recent results throughout the league have proved just that.

But winning the league title will always be my priority for this club and every game between now and the end of May will be treated with the commitment and determination that's expected from everyone connected with the club.

There's not a lot between the teams this season, and what can be said about this Old Firm match that hasn't been said before.

Today's encounter will be a very close one.

A game unique in World football with the tremendous rivalry between both clubs, and I want to make sure both sets of supporters behave themselves this afternoon.

I hope you will see quality football which both sides are capable of because both teams possess outstanding quality international players.

So enjoy your afternoon at Ibrox and let's hope for some excellent entertainment.
