Can We Emulate Hearts?

LEAGUE Cup holders, Celtic, are our visitors at Dens Park to-day, and we extend our customary welcome to them. Although they have not maintained their early season promise, Celtic are always an attractive team to watch. If their home record had been comparable with their away record they would have been challenging strongly for the League leadership. Hearts are the only team who have beaten Celtic away from the Parkhead ground, which indicates that we

will be fully extended to administer defeat to our visitors.

Our boys showed at Hampden on Saturday that they have the ability to score goals, and it was the variety of moves which led to the goals which was so encouraging. The interchanging of our forwards caused havoc in the Queen's Park defence, and while it would be wrong for us to be satisfied or complacent after last week's result, we feel that it gave promise of better things to come from our team.

team occupying a more eminent position in the League.

With only two home games to play after to-day, Airdrie and East Fife, only a win over our visitors will satisfy us. Celtic, with their proud away record to maintain, will also be making a

special effort, which all adds up to what should be a thrilling encounter. We know that we can count on your vocal support on this occasion, and we feel that the boys will respond to your encouragement.

Reserve Team's Stern Task

Our reserve team got back on to the winning way last week, and the youngsters in the team added to the reputation they are steadily building up. They face one of their stiffest tasks at Celtic Park to-day, where we hope to have the services of one of our provisional signings, left-back Alan

Goldie from Muirkirk Juniors. We were also hoping to play George McGeachie, who is making steady and satisfactory progress after his operation. Ground conditions in Glasgow would be taken into consideration before a final decision was made regarding George.
