1970-1

Qualifying Cup
1900-1, 1901-2

A Message from Stenhousemuir

On behalf of Stenhousemuir FC I wish to accord a very warm welcome to tonight's opponents, Glasgow Celtic, and their numerous supporters.

What can one say about this famous club which has not already been said—proud and worthy champions of Scotland for nine consecutive seasons, Scottish and League Cups galore, not to mention their European triumph a few years back. A Club which has defied all the worst in the modern defensive game by attacking with great skill and majestic grace to positively win matches by scoring goals and let's face it, that's the name of the game—Goals!

We look forward with bated breath to see these wonderful attributes paraded tonight, on a soccer pitch of which we at Stenhousemuir are rightly proud.

Having written that, our own players have no intention of being mere spectators because we wear the maroon with equal pride and accept the challenge and go into tonight's game full of enthusiasm knowing that we will not fail through lack of effort.

In the past there has been a very close association between our two clubs and several players have gone to Parkhead from Ochilview. Possibly the best known to most people here tonight was Willie Wallace, one of the famous Lions of Lisbon, who started his senior career with us. Back in the 1900s Alex McNair, a full-back, left here to join up at Parkhead and to this day is accepted as one of the finest full-backs ever to wear the famous green and white. In the early post war years we were fortunate to have in our side another two of Celtic's great players who came to Ochilview to finish their careers—Willie Buchan and the late (Happy Feet) Charlie Napier.

I would like to take this opportunity to express best wishes to your General Manager, Jock Stein, and all of us at Stenhousemuir hope the Big Man is back at the helm at Parkhead very soon as the game is the poorer for his absence.

The stage is set, the curtain's up—David is ready to do battle with Goliath, let's sit back and watch the outcome. Above all let's enjoy ourselves.

JOHN COOK
